## **Completes C\$2,502,500 Bought Deal Private Placement Over-Allotment Increased**

**VANCOUVER, B.C. (February 12, 2007) – Nevada Geothermal Power Inc. (NGP)** (TSX-V: NGP, OTC-BB: NGLPF) announced that it has closed its previously announced bought deal private placement of 3,850,000 units ("Units") at C\$.65 per Unit for gross proceeds of approximately C\$2,502,500.

Dundee Securities Corporation ("Dundee") acted as lead underwriter on behalf of a syndicate of underwriters including Jacob & Company Securities Inc. (collectively, the "Underwriters"). NGP has granted the Underwriters an over-allotment option exercisable up to February 28<sup>th</sup>, 2007 to increase the size of the Offering by up to 14,650,000 Units on the same terms at C\$0.65 for additional gross proceeds of up to C\$9,522,500.

Each Unit consists of one common share and one share purchase warrant (a "Warrant"). Each warrant entitles the holder to purchase one additional common share for a period of 24 months after closing at a price of C\$1.10 per common share, subject to an acceleration provision such that if, at any time six months or more after the closing, the price per NGP share on the TSX Venture Exchange is C\$1.65 or higher for ten (10) consecutive business days, then NGP shall give the investors notice that the Warrants must be exercised or they will expire within 30 days.

The Underwriters received a 7% cash commission together with an option (the "Compensation Option") to acquire that number of Units that is equal to 8% of the number of Units issued. The Compensation Option entitles the Underwriters to purchase Units, exercisable at the offering price of the Units for a period of 24 months following closing of the Offering. The securities are subject to a four month hold period.

The net proceeds of the offering will be used to fund further development at the Blue Mountain Geothermal site, development of other existing projects and for working capital.

Nevada Geothermal Power Inc. is a renewable energy company developing geothermal projects in the United States to provide electrical energy that is clean, efficient and sustainable. NGP is committed to the geothermal industry and currently owns a 100% leasehold interest in four properties: Blue Mountain, Pumpnickel, Black Warrior, all of which are ideally situated in Nevada and Crump Geyser in Oregon. An initial 30 MW power plant is planned to begin generating power at the Blue Mountain site subject to further resource drilling and feasibility studies.
